108 年度學士後獸醫學系招生考試試題紙

學系別	考試科目	考試日期	時 間
學士後獸醫學系	英文	108.04.27	08:40-10:00

Americans love to eat foods that are high in (61). This, combined with lack of exercise, has led to a nation of very chubby people. About two-thirds of Americans weigh too much, which often leads to them having health problems. The huge increase in the number of people in the U.S. who weigh too much has led to an outbreak of in (62) diseases, such as diabetes. During physical checkups, some people are also diagnosed with high blood pressure, while the diagnosis for others is a hardening of the arteries. All of these problems result in people dying much earlier than they should. Unfortunately, this “American disease” of being too fat is spreading to other countries as well, such as Japan and Taiwan.

There are some medications that doctors can prescribe to help people fight diseases associated with being too heavy. But these medicines are not a cure. The best medicine is for people to implement a healthy diet and exercise every day. Such a diet includes fruits, vegetables, and at least three portions of whole (63) each day.

In addition, people should choose low-fat milk, which is high in calcium. Also, eat low-cholesterol meals and prepare foods with very little salt. Fish and chicken can be eaten without too much worry, but too much beef, pork, lamb, and other red meats are not good for a person’s health. In addition to proper (64), it is also important to be physically active. Exercising sixty to ninety minutes a day is a good idea. People who have addicted themselves to tobacco must stop. People who like alcoholic drinks should only enjoy them in small (65).

- 61. (A) cargoes (B) calories (C) carnivals (D) cravings
- 62. (A) chronic (B) acute (C) cardiovascular (D) psychological
- 63. (A) grain (B) antibiotics (C) vitamins (D) antigens
- 64. (A) vaccinations (B) culinary (C) cooking (D) nourishment
- 65. (A) plates (B) side dishes (C) amounts (D) gulps

During a recent airplane flight, I discovered how (66) video games can be. I had traveled to the U.S. (67) business. While there, I bought a how (68) game player for my nephew in Taiwan. When I flew back to Taiwan, I packed the player in my backpack rather than my (69). After boarding the plane, I squeezed into my seat and took the player out of the backpack. After the plane took off, I began playing a game. Within minutes I was hooked. I played the game throughout the entire twelve-hour flight. When we landed in Taiwan, I was (70) from lack of sleep. I decided then and there not to play addicting video games on any future flights.

- 66. (A) ambitious (B) allocating (C) adhering (D) addicting
- 67. (A) at (B) on (C) of (D) in
- 68. (A) optional (B) partial (C) portable (D) penal
- 69. (A) longitude (B) luggage (C) loneliness (D) longevity
- 70. (A) exotic (B) established (C) exhausted (D) exhibited

In 2003, when SARS came to Taiwan, it made a (71) impact, both in social and human (72). The government, rather belatedly, set up an infectious diseases control (73) in response. Two years later, the H5N1 strain of avian influenza arrived, but the way this virus was transmitted was completely different. The government tried to treat it as another SARS, but found its efforts ineffective in containing the spread of the virus. The government also tried to deal with the H1N1 strain of swine flu in the same way in 2009, by (74) the infected and encouraging more anti-flu vaccinations. The result was that nearly 300 people died. The nation's record on the (75) of infectious diseases is far from perfect.

71. (A) confidential (B) consecutive (C) considerable (D) conspiring
 72. (A) invest (B) revenue (C) cost (D) return
 73. (A) momentary (B) monetary (C) machinery (D) mechanism
 74. (A) eliminating (B) quarantining (C) accelerating (D) discriminating
 75. (A) prevention (B) prominence (C) providence (D) profundity

The life of a poet is usually thought to be a contemplative one: plenty of reading, writing, and quiet philosophizing in studies or libraries. If ever there was an (76) to this rule, it was Edgar Allen Poe (1809 -1849).

Born in Boston, Massachusetts, Poe was orphaned at the age of only three. Fortunately, a wealthy merchant, John Allan, (77) the boy. The new family lived for five years in England, where Poe went to elementary school. Later the family returned to Allan's home in Richmond, Virginia. Poe then entered the University of Virginia but was there for only a year. He fell into the habit of gambling and left the Allan home for his hometown of Boston.

By the age of eighteen, Poe was already writing poetry. About the same time, he entered the West Point Military Academy but was (78) shortly thereafter for neglecting his duty. He then briefly made New York City his home, where he penned many poems and worked as editor at various magazines. Now in his 20s, Poe, concentrated on his writing and won several awards. He moved into his aunt's home in Baltimore, Maryland and married her daughter, his 13-year-old cousin Virginia. He frequently changed his address, living in several East Coast cities, always working on his writing and editing magazine stories.

With the death of his wife Virginia in 1847, Poe became suicidal. He turned to alcohol for relief but quickly became an (79). He was found dead on a street in Baltimore in 1849 under mysterious circumstances. Thus came to an end the short but intriguing life of one of America's finest poets and short-story writers.

Good writings outlive their authors, and Poe was no exception. His poetry, though often depressing and dwelling on dark themes, is considered among the finest ever written. He is also (80) with being a pioneer in the development of the modern detective story. His deep understanding of tormented hearts and minds leaps from the lines of his poetry and the pages of his short stories. Despite his short, tragic life, Edgar Allen Poe will thrill and chill many generations to come.
